1. Claims 12,16-20 and 29 are directed to an allowable product. Pursuant to the procedures set forth in MPEP § 821.04(B), claims 1,3 and 6-11 are directed to the process of making or using an allowable product, previously withdrawn from consideration as a result of a restriction requirement, Claims claims 1,3 and 6-11 are hereby rejoined and fully examined for patentability under 37 CFR 1.104.

Because all claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, **the restriction requirement as set forth in the Office action mailed on 9-5-2006 is hereby withdrawn.** In view of the withdrawal of the restriction requirement as to the rejoined inventions, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

2. The following is an examiner's statement of reasons for allowance:

The invention relates to a process for producing a seamless metal foil and metal foil catalyst carrier body which includes a seamless one piece body having an interior with hold formed therein; a inner contour delimiting the hole and an outer contour and a structure with radially running wave peaks and wave valleys extending from the inner contour to the outer contour the wave peaks and wave valleys having a wave height being constant in radial direction and having a wave length increases in radial direction

which has not been taught either singularly or in combination by the prior art. The construction of the metal foil simplifies the production of catalytic converter honeycomb bodies through which gas can flow in the radial direction.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
